

TABLE OF REVISED PAGES

The following table is included in this code as a guide for determining whether the code volume properly reflects the latest printing of each page. This table will be updated with the printing of each supplement, with the “Revision Date” column reflecting the date in the footer of the latest printing of pages in the up-to-date volume.

Through usage and supplementation, pages in looseleaf publications can be inserted and removed in error when pages are replaced on a page-for-page substitution basis.

The “Page” column lists all page numbers in sequence. The “Revision Date” column indicates the year in which the latest revisions were prepared. The ordinance adopting revisions prepared in any given year may have been adopted in the following year. A “—” indicates that the page has not been reprinted since before the 1999 supplement.

This table reflects all revisions to the comprehensive plan through Ordinance 4302, passed June 7, 2011.
